WARTG World-Wide RTTY Contest 1973 - COMMENTS:

- WA3IKK - The division of operating hours is fantastic.
- I1BAY - The new rules give balanced possibility to operators and more interesting the contest. Fairly conditions except on 10 m. A bad noise from an intruder RTTY station keep all the frequencies on 14 Mhz for a long period. Thank you very much for a FB RTTY Contest.
- YU2CAL - This is first contest on RTTY for Radioklub "MEDJIMURJE" Cakovec.
- KZ5LF - I was most pleased with the hours of the contest, lets you work the contest and still have some time with the family. I do hope that other contest committees will consider them when planning their contests.
- OZ8GA - Deltagerne forekam meget rastløse, og jeg oplevde alt for mange "pile ups" som skabte unødige QRM i QSO'erne (hi).
- W8CQ - The contest was excellent. Unfortunately I could only spend a couple of hours during each period but conditions were good. I liked the 3 periods and there seemed to be openings during each period, at least when I was on. After a summer of very little activity it was nice to hear some QRM again.
- SM0OY - Missade större delen av testen p.g.a. besök från DL-land samt kräftskivor.
- DK2XV - It would be the best contest I ever made, if there would be not the QRM of a commercial Russian Fl-station, producing a 59+20 signal on every 4kHz on 20 m. This Russian station is already well known (power = 1 MW, location Moscow and Krim) but in spite of diplomatic and other activities it did not QRT.
- HB9AVK - I think we must now brands in the newspapers etc. the intruders on 20 meter band... MNI thanks for this nice contest.
- SM7BGE - Var tyvärr bara med under söndagen. Det var trevligt.

SARTG World-Wide RTTY Contest 1973 - COMMENTS

- OZ3VJ - Jeg havde håbet på mange QSO's, men desværre fik jeg "PA-break down" umiddelbart efter denne contact, så resultatet blev lille, men jeg håber at blive mere aktiv fremover.
- I5MPK - It was a great pleasure to join the 3rd SARTG Ww Contest. Propagation was quite good on 80-40-20 meters, but bad on 15-10 meters. Nice with the new rules. 73 to all SARTG members.
- SL5AR (Opr SM5EIT) - En verkligen kul contest. Fortsätt med 3 x 8 tim. Försök få andra att ha samma system. Verkligen kul med följande kommentar: "Very nice to hear you on and my first SL5 prefix ever in twentyfive years. Hi Hi. Thanks de Irv W6FFC."
- W6AEE - Transmitter went dead on Saturday morning -tubes- went to town for 2 new 6146's for the HT32 - so missed several stations.
- OK2OP - This was my best RTTY Contest I took party. So many DX stations I had never worked.
- SM5-5167 - Great fun scanning the bands. Unfortunately my machine went crazy after ten minutes of the first part of the contest. Did manage to get it working to the second part. Bcnu next year!
- K1SGU - An excellent contest. Sorry did not have more time on the air. See you next year.
- K6TV - I enjoyed my second entry into RTTY contests.
- OZ7RD - Det var en vaeldig fin test med mange nye land som vi ikke havde haft kontakt med, og som den var tilrettelagt var det jo også muligt at få lidt søvn.
- WA2YVK - I must say that conditions were fantastic. My only regret is that I was not able to spend the full time in the contest. Since both 15 and 10 were open to EU for at least a portion of the contest, I can only conclude that many of the boys in Europe did not bother to check those bands and simply made a great big racket around 14090. Sad. Thank you very much for a great contest!
- I4AOV - Not so good the propagation but very nice to work in this contest.
- W5EUN - Really enjoyed the contest this year and especially the new operating periods. Gives everyone the same chance and gives everyone some time to sleep!
- K6WZ - Thanks for another FB contest. Condx and activity from Europe were unusually good -- best I have seen on 20 m during a contest. Worked three new countries.
- KH6AG - A great success no matter how you look at it--Congratulations!
- W3KV - FB Contest - Excellent Condx + Activity. Sorry could not put full time in it but had a wedding to attend! Also two break-down in the exciter, hi.
- VP2KH - I thoroughly enjoyed the contest and wish to thank you and the SARTG for organizing it.
- K5QBU - Very good contest. Conditions generally good. Several new countries for me.
- VE7UBC - Really enjoyed my first contest in almost a year and was really surprised to find so many stations on. I was also rather amazed at the good condx.
- K6YUI - Had fun the bands were very bad at this end. Never did hear a signal on 28 MHz.
- XE1LL - If I win please send me one 1974 yellow Volvo as my prize (postpaid)!
